

PARTS

A full line of drive sprockets, friction drive rollers, shakers, flails, and rollers of all types (steel, urethane, and rubber) are available for use with Noffsinger Belt Chain and Hook Chain conveyors. These products are constructed from many types of materials for various conditions and applications.

URETHANE ROLLERS

HOOK CHAIN SPROCKET

**BELTED CHAIN SPROCKET
(SIEVE WEBS)**

HIGH PROFILE

HYBRID SPROCKET

Noffsinger hook and belt chain steel sprockets are made from the highest grade cast iron with the maximum amount of chrome added for extended life. Steel cut and urethane sprockets are also available. Noffsinger has special patterns made exclusively for every sprocket. They are precision designed to exactly match the chain pitch and sprocket run requirements. With Noffsinger's sprockets, there's no loose or sloppy fit because the pattern has been properly engineered. There are a variety of style, with pitches and number of teeth to fit any type of machinery.
